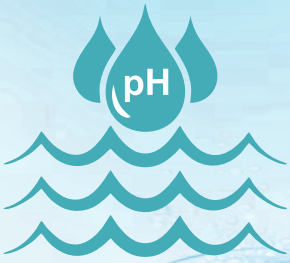
AQUA DROP

WATER CONDITIONER & pH MANAGEMENT SOLUTION



Features & Benefits

Aqua Drop is a high-quality water conditioner and pH management solution specially developed to improve the effectiveness of agricultural spray applications. It is compatible with water-soluble fertilizers, micronutrients, and plant protection products.

Hard water and alkaline pH can reduce the effectiveness of spray solutions. Aqua Drop improves water quality and adjusts the pH to an optimum range, thereby enhancing the performance of agricultural inputs and promoting better nutrient uptake by plants.

For optimum spray performance, maintain the pH of the spray solution between 5.5 and 6.5.

Directions for Use

- ·Maximum dosage: Use only up to 1 ml per litre of water.
- Add Aqua Drop to the water in the spray tank before adding any other agricultural products.
- Do not mix the product directly with other products in concentrated form.
- Ensure that the pH of the final spray solution remains above 5.0.
- For optimum performance, maintain the pH between 5.5 and 6.5.

Composition

Ingredient	Percentage
Organo-Mineral Acidifiers	18%
Buffer Solution	5%
Stabilizers	3%
Solvent & Aqua	74%
Total	100%

pH Scale Guide

Acidic	Ideal Range	Alkaline
Low pH	Low pH	High pH
2 to 5	5.5 to 6.5	7 to 12

Recommended Dosage

Foliar Spray: 0.5 to 1.0 ml per litre of water.

Application Method

Add Aqua Drop pH Balancer gradually to clean water while stirring continuously. When the solution turns light pink, add the required agricultural products, mix thoroughly, and then proceed with spraying.

Precautions

- For agricultural use only.
- Shake well before use.
- Store in a cool, dry place away from direct
- sunlight.
- Keep out of reach of children and animals.
